

# E-Billing

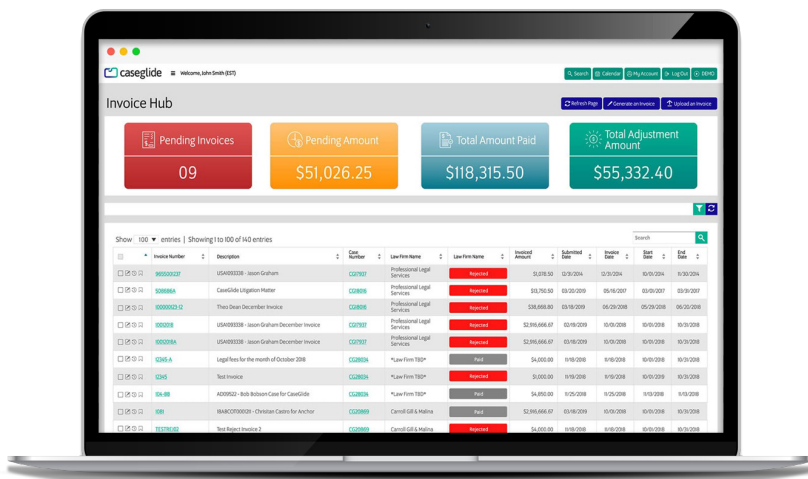

Drive compliance and experience substantial fee savings

## Results you can count on

Utilize CaseGlide’s fully configurable rules engine to review your lawyers’ invoices for compliance with your litigation guidelines.

CaseGlide approves invoices that are compliant with your guidelines and can either flag for additional review or automatically adjust non-compliant invoices.

With CaseGlide’s e-billing solution, you can experience substantial fee savings and uncover actionable intelligence to make better attorney selection decisions.

## One Unified Platform

CaseGlide meets the current challenges facing claims litigation teams.

- Artificial intelligence and your billing guidelines power automated bill review and compliance
- Legal bill review technology that delivers real-time transparency to ensure compliance with case budgets and milestones
- Built solely for claims litigation organizations and a simple implementation strategy gets you started quickly

## Unlock the Power of your Data

Save valuable time and resources with digital invoicing and an AI-powered compliance engine that works within your litigation guidelines. As part of the CaseGlide unified litigation management system, you get actionable data that allows you to better understand your costs and identify top-performing attorneys. CaseGlide transforms how your Broadspire claims professionals and attorneys work together to close and resolve litigated disputes.
