

One unified litigation management system that aligns claims professionals and their attorneys, shortens cycle times, and reduces costs.

A Partnership to Streamline your Claims Litigation Process

Broadspire has partnered with CaseGlide, the industry's leading claims litigation management solution, to help their customers resolve litigated files more efficiently, more quickly, and with better outcomes. CaseGlide is the claims industry's only unified platform that aligns claims professionals and their attorneys around case strategies, case expectations, and desired case outcome. CaseGlide helps claims teams become more efficient and productive and also lower their costs.

One Unified Platform

CaseGlide meets the current challenges facing claims litigation teams.

One system that combines:

- Collaborative matter management
- Actionable analytics and flexible reporting
- Configurable dashboards
- Insight into attorney performance and results
- Integrated e-billing with automated bill review and compliance

All Your Critical Data on One Secure Platform

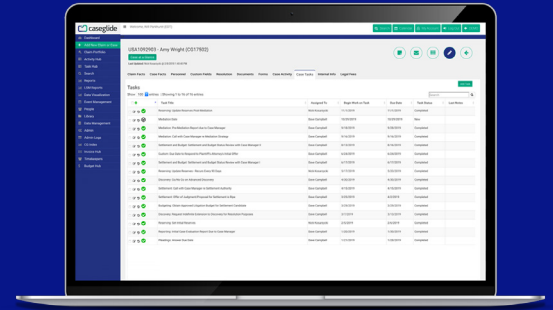

Communications, documents, tasks, calendars, and your designated workflow are all stored on a secure platform, accessible from anywhere. CaseGlide effectively aligns claims professionals and attorneys, shorten cycle times and reduce costs.

Data-driven Insight for Improved Productivity

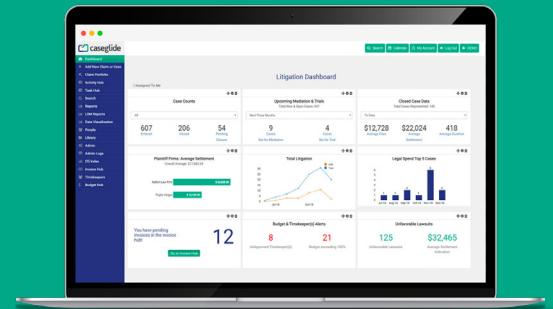

One system that integrates claims matter management, attorney communications and performance, invoicing and billing compliance, and provides you actionable, real-time data to make informed decisions to increase program efficiency.

Make better, more informed decisions with increased visibility into status, costs, firm performance, venues, and more.

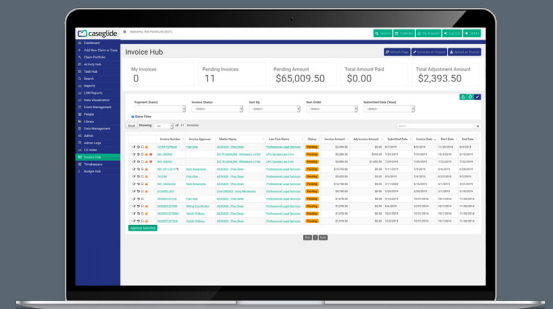

Monitor real-time, configurable dashboards and run comprehensive reports.

Find the right attorney for the right case with data-rich attorney scorecards.

E-Billing compliance made easy with proactive workflows, enforced rules, rates and substantial fee savings.
